## Local and General

P. Whimster, right of way  
agent of the C. P. R., was in town  
last week on company business.

John Rayburn, of a Chicago  
employment bureau, offers the  
major of Vancouver all the white  
lat or the city may need.

Rev. Cyril Reginald Johnson, a  
Toronto university man, was  
drowned in the French river.

In Class 16 of the prize list  
there is a slight error. Section  
two should read "Boar, one year  
old or over."

Mrs. Anna Baker, aged 31, of  
Los Angeles, brooding over ill  
health and the absence of her husband  
in Iowa, drowned herself and  
little daughter in Johnson lake.

Frank Katzenbach, of Trenton,  
N. J., was nominated as Democratic  
candidate for governor of  
New Jersey.

On account of unfavorable  
weather the Stettler fair has been  
postponed until the first and  
second of October.

The Chinamen recently arrested  
in Regina for census purposes  
have issued writs against Mayor  
Smith and four policemen for  
\$2,000 damages each.

J. B. Taylor has purchased the  
residence of A. D. Watson, on  
Glass Street. He expects Mrs.  
Taylor to arrive from Manitoba  
about the first of October.

James Carter, 35 years with the  
G. T. P., died in Toronto yesterday.  
He had charge of the train  
wrecked at the Humber in 1884,  
when 29 men were killed.

Charlie Craig, who has been on  
the staff of The Western Globe  
for the past eighteen months, has  
accepted a position in Oils and left  
for that burg on Saturday.

Councillor Garman, of Alis,  
paid us a visit on Saturday. He  
reports everything booming in his  
thriving town. The crops around  
Alis will all be saved if the present  
fine weather continues.

Mr. Inskip wishes us to state  
that he emphatically denies having  
supplied liquor to anyone in  
Lacombe since he went out of the  
liquor business. He is determined  
that the license act will be complied  
with so far as he is concerned.

The men are working overtime  
on the new school house, and are  
making a great effort to have the  
walls up before the cold weather  
sets in. The finishing touches are  
being put on the Day and Urquhart  
Blocks, and the stores will be  
ready for tenants in a few weeks.

Mrs. Radel has rented a portion  
of the Russell Block and will conduct  
a first class dining hall. The  
dining room is on Alberta St., in  
the rear of Medical Hall. In the  
near future Mrs. Radel will have  
thirteen bedrooms ready for the  
accommodation of the public.  
Travellers will be able to secure  
meals unexcelled in Lacombe, and  
there will not be any necessity in  
future to patronize the Chinese  
restaurants. Mrs. Radel is well  
known in Lacombe, having been  
cook in hotels here for some time.

George Hoson received word  
on Saturday that his father had a  
narrow escape from death at the  
hands of a burglar a few days before.  
It appears that the town of  
Delhi, Ont., Mr. Hoson's old home,  
has been infested with burglars  
for the past few weeks. On Thursday  
night Mr. Hoson surprised a  
gang at work on the safe in the  
post office, and one of the men  
fired a revolver at him. The bullet  
was well intended and only  
missed its mark by a couple of inches,  
going through Mr. Hoson's hat.  
A couple of weeks ago the  
jewellery store, belonging to Mr.  
Hoson's brother, in the same town  
was burglarized. The robbers  
secured a large quantity of valuable  
watches and jewelry. No captures  
have been made.

**WANTED**—Woman to work  
out a couple of days per week.  
Apply at Globe Office.

The Rev. M. White went to Calgary  
on Monday to attend the  
meeting of the Synod of the Home Mission  
Committee.

The plasterers are at work on  
the Adelphi Hotel, and it will not  
be long before the hotel will be  
open to the public.

Children's Day Service in the  
Presbyterian church next Sabbath  
morning. Parents and others  
interested in Sabbath School work  
are invited to attend.

A handicap billiard tournament  
for handsome medals will be  
started at the Athletic Club Store  
and Billiard Hall this week.  
Make your entries now.

Mrs. Elizabeth Carter, mother  
of Mrs. (Dr.) Sharpe of Lacombe,  
died at the home of her son, 830  
Dorchester St. west, Montreal,  
on the 11th inst. The deceased had  
been ill for the past two years.

The Directors of the Agricultural  
Society have added a class  
for Holsteins. Although this class  
does not appear in the prize list,  
prizes, the same as in other cattle  
classes, are offered.

J. W. Lundy wishes us to announce  
that the last of his flock of  
tamed wild geese has fallen a victim  
to the process of local milder.

About a year ago Mr. Lundy secured  
five young wild geese, and with  
a great amount of trouble  
brought them up to maturity.

They were so tame that although  
they would visit the stumps around  
town, they would wander home at  
night and conduct themselves in a  
manner becoming a domesticated  
bird. This fall, however, they met  
their doom at various times, and  
many are the stories told by the  
lucky hunters who came across  
the flock. The latest was of the  
young man who captured a wild  
goose by hand in the west end of  
the town, and put a finish to it.  
This was the last of Mr. Lundy's  
flock.

### Parties and Issues.

(Toronto News.)  
The laborious efforts of the leader of opposition to construct a platform for his party once more reveal the fundamental absurdity of the party system. Why go about to construct an artificial antagonism of principles when no natural antagonism presents itself?

"Bystander" here strikes at the central weakness of the party system, a weakness which should be always kept in mind even by those who regard the system as a necessary evil.

When the two parties are divided upon some great principle, the party system is seen at its best. But it frequently happens that there is no such division, and that on the really important question there are Liberals and Conservatives on one side and Conservatives and Liberals on the other. Such is the case with regard to public ownership of railways, telegraphs and telephones. Each party says that its opponents are divided on the question, and each party speaks truly. So it is with the prohibition of the liquor traffic. Consequently, instead of an argument on the merits of these questions, we have a ceaseless and profitless wrangle as to which party is the best friend of prohibition or public ownership, or some other great cause which meets with public favor.

In Great Britain the Liberal party finds arrayed against it certain privileged classes, and this gives reality to the party contest. In the United States there is not so clear a division, and consequently there is an air of artificiality and unreality in the scores of party platforms that are constructed every year. Instead of being the natural, spontaneous expression of the Republican or Democratic view, they are bids for public favor, constructed by expert window dressers, who seek to make the most attractive display of political wares. Elections are won, not on these shows, but on the personality of leaders, and on the real issues that arise by necessity, such as the question of slavery or State rights. Reforms in Canada can be effected only in the same, by the forcible presentation of a few great issues, not by a miscellaneous display of political merchandise.

A fine line of pipes and smoker's goods have just been received at the Athletic Cigar Store and Billiard Hall.

**WHERE AMHERST MAKE EXCELS**

### Dance at Blackfalds.

The bachelors of Blackfalds will hold their annual dance in the hall, Blackfalds, on next Friday evening. The affair promises to be most successful. The management wishes us to state that admission to hall is by invitation only.

The Rev. Dr. Shearer, Secretary of the Lord's Day Alliance will address a public meeting in the Presbyterian church on Thursday evening at 8 o'clock. The subject to be dealt with is a most important one, and as Mr. Shearer is thoroughly acquainted with it, and an able speaker, it is hoped that many will avail themselves of this chance to hear him.

**BOY WANTED**—Strong lad, (living at home) who wishes to learn the printing trade, can get a situation by calling at The Western Globe Office.

Mrs. (Dr.) Hynes will be at home to her friends on Wednesday, October 2nd.

### Council Meeting.

Lacombe, Sept. 30th, 1907.  
Minutes of council meeting held on the above named date.

Members present Mayor D. C. Gourlay, Councillors J. D. Skinner, F. Vikerson, H. A. Murphy, W. J. Simpson and Jas. P. Kent. Communications read:

A communication from the Provincial Health Officer re Health By-law.

A communication from the Alberta Investment Co. re premiums on bond for 1906.

Communications referred to their proper committees, Sec. Treas. to answer.

Reports of committees.

Report of finance committee.

To the Mayor and Council of the Town of Lacombe:

Gentlemen:—We, your Finance committee, beg leave to report that we have examined the following accounts and recommend that they be paid:

T. C. King (returning officer) \$ 3.50  
Cameron & Hay 80.00  
F. V. Parsons 6.50  
Bell Telephone Co. 10  
H. A. Day 15.00  
D. J. McLachlan 7.25  
Western Globe 34.77  
H. N. Rose 34.00  
D. M. Cannon 37.25  
Robt. McNaughton 12.00  
Wm. McNaughton 44.50  
Campbell & Titworth 10.20  
A. D. Watson 4.50

Moved by Coun. W. J. Simpson seconded by Coun. F. Vikerson, that the report of the Finance Committee be adopted and that the Mayor issue an order on the Sec. Treas. for each amount, carried.

Reports of delegates to Convention of Municipalities held at Medicine Hat by H. A. Murphy and F. Vikerson.

Inquiries.

By Coun. W. J. Simpson re poll tax Collector.

Jas. P. Kent, re the electric light at Day street.

Notice.

Notice of a by-law to appoint a collector of poll tax for the Town of Lacombe, by Coun. W. J. Simpson.

There being no further business the Mayor declared the meeting closed.

T. CLARK KING, Sec. Treas.

Lacombe, Sept. 17, 1907.

Minutes of council meeting held on the above named date. Members present, Councillors J. D. Skinner, H. A. Day, W. J. Simpson, and Jas. P. Kent.

The Mayor being absent, councillor Skinner was elected to the chair.

Minutes of last two meetings read and approved.

The following communications were read: A communication from Nelson School Board re closets. A communication from the Provincial Board of Health re sewer.

The following bills were read:

W. McNaughton \$44.50  
Robt. McNaughton 12.00  
A. J. Leslie 1.50  
Bowman & Sine 26.46  
A. D. Watson 4.50  
Bell Telephone 10  
Cameron & Hay 30.00  
H. N. Rose 34.00  
F. V. Parsons 6.50  
Western Globe 32.62  
Western Globe 2.25  
Campbell & Titworth 10.20

Bills and communications were referred to their proper committees.

Report of Finance Committee. To the Mayor and Council of the town of Lacombe.

Gentlemen:—We, your finance committee beg leave to report that we have examined the following accounts and recommend that they be paid:

Bowman & Sine Lumber Co. \$73.00, public works.  
Campbell & Titworth \$1.50, public works.  
Blindman River Electric Power Co. \$9.76 fire water and light.  
D. C. Gourlay & Co. \$14.90 public works.  
J. I. Frizzell \$21.50 public works.

J. I. Frizzell \$25.00 bylaw relief and health.  
J. I. Frizzell \$5.65 public works.  
C. Leeperance \$2.00 bylaw relief and health.

W. J. Simpson, Chairman Com.

Moved by councillor Simpson, seconded by councillor Kent, that the report of the finance committee be adopted and that the Mayor issue an order on the secretary-treasurer for each amount. Carried.

A by-law for regulating the licenses of the Town of Lacombe was read a first time by councillor Simpson, was taken as read a second time and discussed. After discussion it was asked to be taken as read a third time and passed; this was objected to by councillor Kent. The by-law was laid over until next meeting.

At the next meeting I will introduce a by-law dealing with rebate of taxes on Merchant's Bank business and Presbyterian Church property on Barnett Avenue.

Signed by W. J. Simpson.

Moved by councillor Day, seconded by councillor Simpson, that this council do now adjourn to meet on Friday evening Sept. 20th, 1907 at 8 p.m. Carried.

T. CLARK KING, Sec. Treas.

### Valley City News.

The snow storm last week caught the majority of the farmers with their crops uncut, and although most of the crops will be saved it will delay the harvest a good bit as the crops have all to be cut one way.

Mr. A. C. Johnston is having a big fall sale to make room for his winter goods. Anyone visiting the store will be able to pick up some good bargains.

The timber for the bridge on the township line has now arrived and the bridge will soon be put in position.

On Saturday night a reception was given to the Rev. and Mrs. Wilkinson at the church. There was a pound donation and gifts of all descriptions were presented. The ladies brought pie and cake for refreshment and a most enjoyable evening was spent.

The town is very quiet at present as the farmers are busy every hour of daylight saving their crops.

### NEWS OF ALIX

A snow storm raged here on Tuesday. It continued from early morn till late in the afternoon. The "beautiful" covered the ground to the depth of about seven inches. Considerable damage was done to the crops. These in many cases, it was thought would be reaped with difficulty. Weather conditions have, however, very much improved since, and farmers' faces now wear an occasional smile.

A box social was held in Todd's hall on behalf of the church on Friday evening last. The hall was comfortably filled, and an excellent programme of music, recitations, etc., was rendered. All denominations were represented. The boxes realized good prices, and a goodly sum was netted as the result of the evening's entertainment.

### Contributions to Hospital Bazaar

Drawn work centre piece, Miss R. E. Muldon, Great Falls, Mont.; Children's dresses, Mrs. I. E. Young; Elderdomer comforters, clarks in A. Unghar's store; Pillowslips, Mrs. C. E. Morris; Christmas plum puddings, Mrs. Barris.

There will be a meeting in November when the ladies of the different churches will arrange for holding the bazaar the 1st week in December.

### Hospital Fund.

Mrs. Jas. Steers \$ 1.00  
Sept. 17 574.35  
Total 875.35

### In a Class by Itself

It is quite true FERROL is an emulsion of Cod Liver Oil and a particularly good one at that. But it combines Iron and Phosphorus with the Oil, and these are just what are needed to make the embryo and perfect and they are just what all other emulsions lack.

### FERROL

is unique because it combines Iron and Phosphorus with Cod Liver Oil. It is pleasant to take and easy to digest. It holds the record for increasing the weight (95% lbs from the use of 25 bottles). The formula is freely exposed and its bona-fide is vouched for by eminent analysts in Canada, the United States and Great Britain. It is endorsed by prominent physicians of all schools. It is used in the leading Hospitals, Sanitariums and other Public Institutions. The London (Eng.) Lancet, after careful analysis is in its own laboratory, fully endorses it. We are prepared to substantiate all the above statements. FERROL is the embodiment of health, strength and vitality, and "You know what you take"

## Petition Turned Down.

On motion of Coun. Skinner, the petition of the ratepayers asking that the council take a vote on the question of the advisability of constructing the Barnett Avenue sewer this year, was turned down by the Reformers. When it is remembered that the petition was signed by seventy-two of the principal ratepayers of Lacombe, the action of the Council is, to say the least, high-handed. It will be remembered that when the Reformers asked for election last year a very strong plank in their platform bound them to take the people into their confidence in all matters where the expenditure of large sums of money was involved. This promise has gone the way of the rest.

There was no promise too good for them to make last December, and all the town has to show at the present time for their nine months work is mud.

Councillor Vikenson was the only man on the council board who wished to give the people of Lacombe a say in the sewer matter, and he failed to secure a second to his motion.

## The Fire Limit Bylaw.

Now that we have had another fire, it is not about time that the council took some steps to enforce the fire limit bylaw? This time the fire which might have cost the town many thousands of dollars started in or under a small building which was erected by Coun. Skinner in contravention of the conditions in the town bylaw. The Globe referred repeatedly to this fire trap, and urged that the building of it be not allowed. While several members of the council were of the same opinion, they evidently had not the nerve to go against the wishes of Councillor Skinner, and the shack was erected. The fire arrived in due course of events. We understand that it is Mr. Skinner's intention to repair the shack in time. Does the council think this is fair to the other large interests in that vicinity? Another fire may occur, under less favorable circumstances, and a large loss be incurred.

If the insurance companies do not insist that this place be removed, under penalty of withdrawing insurance, the citizens who have their capital invested in the immediate vicinity should take proceedings to have it done.

## Council Should Investigate.

The recent fire in Lacombe should be investigated. There is no doubt in the minds of anyone who has visited the scene of the conflagration that the fire was deliberately started by someone. Mysterious fires have been a feature in Lacombe for the past year. The fire on the corner a year ago was not investigated, the school house fire was never satisfactorily accounted for, there was a mysterious fire in the top story of the Russell Block not very long ago, and now if the recent fire is allowed to pass into history without an effort being made to account for it, Lacombe will soon become a very unsafe town to invest money in. It is the opinion of some citizens that there is in our midst a fire bug, an investigation might bring out some information.

## The Crop Prospect.

The farmers of the Lacombe district are nothing if not optimistic. When we consider the brand of weather we have been having for the past few weeks it is surprising that one farmer could be found who had any faith left in the country. But it is the very opposite. The farmers are all in good humor, and all expect to reap good crops. Of course much of the grain will be harvested with a lot of hard work, cutting close way, and so forth, but this fact does not cause them to lose heart. The

higher price, they say, will remunerate them for the extra labor.

Down east things are worse than they ever could be in Alberta. In many parts of Ontario the crops are a total failure, the farmers have been unable to put up any hay, and as a result stock is being placed on the market and sold for what is offered. Good milk cows may be purchased in many districts in Ontario for from eight to ten dollars a head.

## The Fall Fair.

Everything is now in readiness for the fourteenth annual exhibition of the Lacombe Agricultural Society, which will be held on the society's old grounds on Thursday and Friday, October 3 and 4. The Secretary has been having a busy time of late mailing out prize lists and posters for the affair, and anyone who has not received a prize list may secure one from him or at this office. Mr. Craig, of the Department of Agriculture, says that Lacombe this year has the best prize list in the country, so far as the classes go. The Society intended to raise the prize money this year, but after much discussion it was thought advisable to leave this matter over until next year, as a great amount of money would be required to get the new grounds in shape. Next year the prizes in the live stock classes will be raised considerably, and probably an entrance fee will be charged for exhibits.

This year's exhibition promises to beat the record in Lacombe, both as to the number of exhibits and attendance. An interesting program of horse and pony races, athletic events, etc., has been arranged for the second day. The racing is for local horses only. A fee of 25c for adults and 10c for children will be charged for admission to the grounds. For further information write to the secretary, N. E. Carruthers, Lacombe.

Arrangements are now complete for the bazaar and sale of work to be held in Day's hall on Thursday next. The ladies of the church have been very busy for the past month or so getting everything in readiness for the affair, which promises to be the best of the kind ever held in Lacombe. A large quantity of useful and ornamental articles have been manufactured for the occasion, and if you need anything in the way of needlework, it can be secured at very moderate prices.

Refreshments consisting of ice cream, coffee, tea, cakes, fruits and confections can be secured at any time during the afternoon and evening. Mrs. J. I. Poole and Miss Inskip have been engaged in training a number of children of the town for the beautiful Gipsy Operetta, which will be well worth hearing. In addition to the operetta there will be a splendid program of vocal and instrumental selections by the best local talent of the town. The bazaar will be held all day, commencing at 10 a. m. There will be no program in the morning, but all wishing to buy goods can be accommodated. The admission morning and afternoon will be free. In the evening an admission of 10 cents will be charged.

Sunday, Sept. 29th, will be observed as Young People's Day in the Methodist church. In the morning Rev. H. E. Gordon will preach a sermon to the children. At 3 o'clock there will be a rally of parents and children at Sunday School. The Rally Day Temperance programme will be used by the whole school. In the evening the pastor will preach a sermon "An Urgent Message" especially to young men. Everybody is invited to all the services of the

## Lands for Sale.

ESTATE OF J. C. EDMUNDSON, Deceased.

SEALED TENDERS for the purchase of the lands of the above estate addressed to J. P. J. Johnson, Public Administrator, Calgary, Alberta, will be received until 15th November 1907.

## Synopsis of Canadian North-West.

### HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 28, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. COVEY, Deputy of the minister of the Interior.

**Western People Are Not too Extravagant.**

J. K. MacDonald, president of the Confederation Life Association of Canada, whose head office is in Toronto, is in Alberta, on an inspection trip in the interests of his company. In an interview he said:

"Your country shows a great improvement every year I come out here. In the east I had many reports on the condition of affairs during this harvest time, and they were of such a contradictory nature that I was really prepared for anything, and was most agreeably surprised when I looked over the country and found matters in such a flourishing condition. From Winnipeg I travelled south all through the southern portion of Manitoba, where my company has a lot of money laid out. I found things in a most satisfactory condition. Taking the Soo line from Eatevan I then came up to Moose Jaw and in places along the line one could hardly believe one's eyes at the marvellous way the country has settled."

"Before I left Toronto," continued Mr. MacDonald, "I made up my mind that I should go over the southern portion of Alberta thoroughly and have a good look at the country, and I have spent several days at different towns, looking over the surrounding country, and I always maintained after my first trip through the west some years ago that it was going to be a great country, and I must say now that I am more confirmed in that opinion than ever."

"There is a certain amount of damage to the crops through the recent bad weather and the losses in some instances will be heavy, but in the neighborhood of Claresholm, where I was yesterday, I saw some of the finest fall wheat one could wish to have, and it was all cut. I might say that it is the exception in the south country where it is not cut."

"The spring wheat that is standing looks very good, and will run easily over 30 bushels, but in some places where the storm has swept over it is flattened right down. In a few cases of this description I examined the heads and found the kernels perfectly free from frost, and the only loss that I can see is in the cost of cutting it. It appears that nature provided for this by covering the heads of the grain with a wet snow that stuck, and kept the frost out. Of course in some instances, there will be a loss from the grain that was knocked now, but I do not think it will be as heavy as is generally estimated."

In response to the query as to what he thought of the money situation, Mr. MacDonald remarked: "That is a problem at present that no person can explain. We can only surmise what the causes are, but one thing I am sure of is this, that the stringency will last until next spring at least, and even then money may not be any freer. Probably one of the many reasons for the tightness now is the fact that the whole world for a period enjoyed great prosperity, new industries were opened out, different lines of business expanded and the cost of living the world over has increased. Take the railroads in Canada. They have increased their mileage, new ones have been started and all this on borrowed capital, with the result that the sources have become entirely exhausted. But these works have to go on, and there you have one cause of the stringency. One cannot blame the banks for refusing to lend money; they simply have not got to lend. Of course, when the property was being enjoyed they were rather free with their loans, with the result that the reaction was felt a great deal more than if they had eased off gradually. There is considerable comment over the fact that they have their money tied up in investments in foreign countries. This is true to a certain extent, as they have money in New York, but they absolutely have to put it out there in case of emergency. For instance if they lend money in Canada, they cannot make a sudden call for it, as this would be disastrous, but in New York they have the call loans, and this means that the money is at their command at an hour's notice. It is not a case of getting the money in a day's notice; it must be so placed that it can be got in at an hour's notice."

Asked if he considered the western people extravagant in the matter of buying autos, etc., he stated that he considered this a piece of twaddle and stated that "the poor farmer's wife has a hard enough life, as it is, and any luxury that can be afforded is remarkably cheap at the price. There is no matter that I do consider the western people are extravagant in, and this is in regard to machinery. When a man buys a binder or drill out in this country, he does not trouble to put it away for the winter after the season is over, but leaves it on the spot where he finished with it, until he requires it in the following spring. This is waste."

**It Looks Bad.**

During the presentation by the Alberta government of the Alberta Retail Lumber Dealers' Association, nearly all the witnesses told the same story, i.e., that all documentary evidence used at the investigation at Ottawa has been destroyed. Secretary Wells testified that the association's bylaws were also destroyed and that since the Ottawa investigation no minutes are kept of the meetings.

To say the least, this sort of thing looks suspicious. It is reasonable to infer that interested parties would not destroy documents called for by a court of justice if they had nothing to fear from investigation.

If Attorney-General Cross can make anything out of this case, he will deserve every credit. It appears as if he had undertaken an almost impossible task. It remains to be seen if there is not some punishment to be applied to those who destroyed these documents after they were called for by the courts.

**The Liquor Habit.**

Editor of Western Globe.

Sir:—Your article of last week re interdicted persons engaged my sympathy and attention. I can't help thinking that as usually practised persons are not interdicted soon enough. When they are able to "drink or let it alone" or better still, before they ever begin is the best and proper time for interdictation.

When habit and appetite have combined to enslave a man he has certainly the fight of his life to again free himself. It seems strange that men with intelligence and showing good sense and judgment in everything else should allow themselves to be entrapped by the drinking habit. They see these cases when men are putting up the fight of their lives to free themselves and are failing, they see men loose their positions and property by it, they see others making most unhappy exhibitions of themselves, sustaining injuries and even coming to their death by the use of this poison and yet they deliberately choose to follow in their steps.

I have called it poison. This is no reflection on the liquor sold by our licensed houses in town. I presume they are just what they claim to be, but I insist that any drink containing alcohol has that much poison in it, for alcohol is a poison. I can show anyone who cares to see more than a half dozen standard books to prove this assertion. None of these are works devoted to temperance, but are ordinary text books on medicine and kindred subjects. Every time we see a man talking or acting foolishly, or staggering on our sidewalks, it is because he is poisoned to that extent and everytime he is so poisoned he suffers physically, mentally and morally. Since July 18th, 1903, I have had two inquests in which death was due to the poisonous effects of alcoholic beverages.

We talk about legal prohibition of this liquor traffic, but what is better still and what we want more is voluntary total abstinence. "Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise."

### Hints on Making Butter for Exhibition.

As a number of our correspondents have recently been asking for suggestions on the making of butter for exhibition purposes, we take it that there is more or less general demand for information on this question, hence these hints. It is taken for granted that those who read the article are familiar with the ordinary routine of buttermaking, thus it will not be necessary to go into details.

The first and most important thing necessary for a buttermaker to bear in mind is the basis or scale of points used for judging. What does the judge usually consider when he or she starts to work on fifty or two hundred lots of butter at an exhibition? The judge must have something definite in his or her mind as to what constitutes a standard of perfection. This standard usually consists of some scale of points, the total making one hundred for the sake of convenience. Even if the judge uses no set scale, he must have some definite ideal in his mind or his judgment is worthless. The standard of perfection is usually made up of: Flavor, Grain, Body, Color, Salting and Packing. As flavor is the most important quality in butter, the maker must ever bear in mind that the judge is likely to decide about one half the merit of each lot of butter according to its flavor. Most judges now give preference to the mild, creamy flavor, rather than to the acrid flavor of former times, hence the buttermakers should not ripen the cream so much as formerly. In no case should the cream have more than five (five-tenths) of one per cent. acid at the time of churning. Where no acidimeter is available, churn as soon as the cream thickens and has a mild, acid flavor. Having cream from perfect milk, or milk with an absence of any fodder or weed flavor, is a great help in getting fine-flavored butter. The use of a culture or good-flavored starter is also a help. If there is any objectionable flavor on the milk, the cream should be pasteurized when sweet, that is, be heated to 160 degrees F. for about ten minutes, or 180

degrees to 185 degrees for two or three minutes. If a good culture is not available, this pasteurized cream may be cooled to about 50 degrees and be churned without any ripening whatever, after standing one or two hours. Such butter has the nice creamy flavor liked by English people, and by a growing number of Canadians.

Don't forget that flavor is the most important point in exhibition butter.

The second point is the grain and body of the butter. A judge likes to have the butter "iron" nicely, i. e., when he pulls a sample out of the print, tub, box, or crock, it should leave the back of the trier clean—not greasy; should be close in body and texture, and not too hard and brittle, nor yet too soft. When the butter is of such consistency that it spreads nicely on bread, its grain and texture are considered perfect.

Temperature of the cream and butter at the time of churning and temperature of the butter at the time of judging are the two most important factors governing grain and body. The character of the fat which is influenced by the cow and her feed, is another factor. Method of working is another; some butter is spoiled by overworking. Work sufficiently to make the body firm, the color even, and the appearance waxy, but avoid too extremes of "over" or "under" working. The "cut-point" is something which cannot be described and is learned only by experience. Working sufficiently to mix the salt well, then allowing the butter to stand for one to three hours before finishing the working is a much safer plan than to depend upon one working. Once working is almost sure to produce butter more or less mottled.

As tastes vary with regard to color and salt in butter, it is very difficult to give general directions which cover all cases. It is better to err on the side of light color and light salting, than go to the other extreme. Up to the end of September it is hardly necessary to use any coloring. After a heavy frost or two a small amount of vegetable butter color added to the cream just before churning is

advisable in order to obtain the "June-grass tint." The main point is to have the color uniform. Mottles, streaks, waves, etc., are always scored down by a competent judge, as this indicates faulty workmanship. The preventives are: washing out the buttermilk with water or brine, even distribution of fine salt and working twice. If these points are noted there is little danger of mottled butter. "White specks" in butter are prevented by straining the cream into the churn, thus removing particles of curd, dried cream, etc., that produce "specks."

Salt at the rate of three-quarters to one ounce of salt per pound of butter for prints and one-half ounce for boxes. Tubs and crocks may usually be salted the same as for prints, because these are chiefly sold on local markets, where the demand is for higher salting than for the export trade. The use of fine salt having sufficient moisture present in the butter to dissolve the salt, and twice working, will usually prevent grittiness which is the most common fault under this head after "too high" or "too low" salting. The tendency is for milder salt in butter, in order that the true creamy flavor of the butter may be more apparent.

The oblong pound print, wrapped in plain parchment butter paper, is the best form. The print should not be too high and narrow, which gives the judge the impression that the butter cannot "stand-up." The top, bottom, sides and ends should be close and straight, or nearly so. Some prints look as if some one had sat down on one edge of them. This is caused by a faulty printer, or not removing the butter properly from the printer. By holding the handle against one side of the print, the butter can usually be removed without trouble. The fifty-six pound box is best for export. This should be neatly finished on the top. A fluted roller passed over the smoothed surface of the butter, relieves the top of that tendency to a greasy appearance. The box should be lined with heavy parchment paper. The butter should be packed in small lots so that if the judge "strips" the

package it will present a close, uniform appearance on all sides and on the bottom. As a rule it is not necessary to put salt paste, or anything except the parchment paper, on the top of the butter. Tubs, crocks, etc., should be filled to within about half an inch of the top, then be covered with a parchment paper, or clean cloth circle, and nothing else except the cover. Fancy patterns or scrolls on top of the butter are usually disliked by the judge.

### GENERAL DIRECTIONS.

1. Have the butter made at least three days before it is judged. This gives time for the grain to set and the color to become uniform. It is a mistake to send butter to an exhibition the same day or the day after churning.

2. Ship in a clean case, preferably enclosed in another case, or in a canvas cover. In hot weather pack in ice before shipping or delivering. Pieces of ice in the basket or box containing the prints tend to keep the butter cool and firm. If the exhibition has a good refrigerator ship in time to have the butter cool before judging day. Also ship or deliver in time. A judge is usually annoyed at having to go over another lot or two after he has finished a class, which possibly means that he may have to alter the score on several lots, in case of ties. The person who delivers late at an exhibition seldom gets more than "cold justice."

3. Be not over-anxious with the exhibition butter. Many persons become so anxious about having their butter so much better than usual that they spoil it, and in many cases the lot sent to the exhibition is not equal to the average make.

4. Bear in mind that the judge will judge the butter chiefly on the question of flavor. He or she will not consider the grain, color, salt and package. These are the five main points to always keep in view when making butter for exhibitions, or at any other time.

## MARKET REPORT

Notwithstanding **Tight Money** and the **Bad Weather**, never before in the history of the West were prospects brighter for the Farmer. **Prices** more than make up for any shortage in the crop, and our main crops, **Butter, Eggs, Hogs and Beef** show no shortage but rather an increase. Prices are all firm and advancing. Present prices may advance any moment. **No. 1 Oats and Barley** are practically worth 50c. per bushel. **Wheat** keeps steadily above the Dollar mark in Winnipeg. All **Feed Stuffs** are high. **Spring Chickens** are worth 15c. per lb. **Butter** is 17c. per lb. and **Eggs** 20c. per doz. Keep your cows milking, feed them extra. Keep your hens laying and your hogs growing, for **MONEY was NEVER SO LOOSE as it is to-day when you have these THINGS TO SELL.**

## OUR STORE NEWS

### FLOUR

Millers advise another immediate advance in Flour, the price of which is now in Calgary and Winnipeg and Eastern Cities, \$3.25 per 100 lbs. Having bought against the advance we will hold the price for a short time only at.....

Now is a chance to economize 2.75

### TEAS and COFFEES

Do you know that our prices on these goods are practically 10c. per lb. or 20% to 30% cheaper than they are generally sold at. And do not make the mistake to think the quality is not as good. That is not the way we build our business.

Our 40c. Tea is the standard cup of quality  
Our 30c. Tea is the equal of any 40c. Package Tea.  
Our 30c. Coffee is the very best, sold at 40c. all over.  
Our 20c. Coffee is the staple article sold at 30c.

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 4th October, 1907, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice times per week each way, between Alia and Lacombe, from the 1st January next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Alia and Lacombe and at the office of the Post Office Inspector, Post Office, Lacombe, or at the Post Office, Edmonton, August 23rd, 1907.

A. W. CURRIE,  
P. O. Inspector

### Fraser---McLeay.

On Saturday morning, August 31st, Rev. Edward Horne, Presbyterian minister of Watford, Ont., officiated in the ceremony which made Miss Maud McLeay of Lethbridge, and Jesse Fraser of Lacombe, man and wife. The ceremony which took place at the home of the bride's brother, R. C. McLeay, was very simple, only the immediate relatives of the contracting parties being present. The bride was given away by her brother, Fred McLeay of Indianapolis, and had no attendants. The wedding march was played by Mrs. R. C. McLeay. The bride was tastefully dressed in white embroidered voile, over silk, trimmed with Rose Point lace.

The happy couple visited several points in the east en route West where they will make their home in Lacombe.

### A New Invention.

The citizens along the avenue were startled on Monday last to see what seemed to them a snow plow hauled by several horses, going zig-zag up the avenue, leaving heaps of mud piled in its wake. We have learned since that the machine was intended for a leveler and would have done its work but for the fact that it was imbued with the idea that it was a plow. The driver had the time of his life navigating the monster through the street, and had many narrow escapes from being turned under. We have not learned whether a patent will be applied for for the machine. There would be no trouble in getting it patented, there is nothing in the face of the earth like it.

Would it not be well to exhibit it at the fair as a counter attraction to Stettin's flying machine?

### Tenders Wanted

Tenders will be received up to October 1st for the erection of a new bonded college on the C.P.R. estate, Edmonton trail. Plans and specifications may be seen at W. Crow's office, Norton St., Lacombe.

W. Crow

### Mrs. Stephenson Dead.

Mrs. Betsey Ann Stephenson, a well known resident of this district, died at the residence of her son, John Stephenson, near Blackfalds, on Wednesday, September 18th, after a very short illness. She was a native of Yorkshire, England, and was 81 years of age. She was the mother of Mrs. James Davidson, who formerly resided in this town. The interment took place on Friday last at the Blackfalds cemetery.

### BORN.

BOODE---At Lacombe, on Sept. 22, to Mr. and Mrs. Louis Boode, a daughter.

WEBSTER---At Morrisville, on Sept. 18, to Mr. and Mrs. J. W. Webster, a daughter.

### Presbytery of Lacombe.

A meeting of this Presbytery was held in St. Andrew's church, Lacombe, on Tuesday, the 17th inst., at 2 o'clock. Rev. M. White, B. D., Moderator, presided. Eight ministers and two student catechists were present.

The time of the Court was largely taken up with the consideration of House Mission matters within the bounds of the Presbytery. It was found that there were eleven Mission fields in all; three under ordained missionaries and eight under student catechists. Some of the latter are returning to college, but additional ordained ministers were appointed. A rearrangement of fields in some cases was deemed necessary, and in one case a commission of Presbytery was appointed to effect such changes as will be for the best interests of the field. Rev. Mr. Bradshaw was reappointed to the field which he presently occupies. The Superintendent of Missions, Rev. Dr. Hartman, was present and took a lively interest in every matter pertaining to his department of work.

Rev. R. C. McLeay, on behalf of the Examination of Students Committee, reported that several

discourses had been received. These, after being examined, were sustained, and their authors certified to their respective colleges.

In view of the increase of the mission stations the Presbytery asked the Home Mission Board for a larger number of students.

The subject of Union was under discussion, and it was remitted to a committee consisting of Messrs. Hogg and McLeod to bring in a finding to be submitted to a subsequent meeting. Another committee, consisting of Messrs. Hamilton and Robertson, was appointed to consider and report on the best method of settling ministers.

After three sessions the Presbytery adjourned on Wednesday forenoon to meet for special business at Wetaskiwin on Saturday at 10 o'clock.

### Shipping Cattle to Chicago Market.

A few days ago J. L. Geisinger, Chas. Reid, A. L. Powrie, and George L. Reed, of the Central Alberta Stock Growers' Association, shipped 21 car loads of cattle direct to Chicago, as an experimental test, from Red Deer.

The Weekly Live Stock Report of Chicago, Sept. 20, reports the experiment as very successful. It says:

One load of these steers averaged 1380 lbs. and brought \$6.10 per cwt, grossing \$85.18 per head; 21 head, averaging 1374 lbs.; realized \$5.30 per cwt, grossing \$75.57 per head; another lot 122 head, averaging 1245 lbs. sold for \$5.30 per cwt, those representing a gross of \$654; a fourth lot of 64 head that averaged 1159 lbs. brought \$4.00 per cwt, representing a gross of \$2584. In addition to the steers they had some cows of medium weight that grossed from \$40 to \$60 per head. The cattle were two and three, mostly of Short-horn breeding.

When it is considered that the duty is appraised on the basis of 30 for three-year-old steers, and 40 for four, and that so far as cows are concerned, there is a general appraisal of \$20 per

head, the 27 1/2 per cent. of these figures does not seem so prohibitive as a good many people might think. A glance will show that so far as the steers are concerned, it means \$8.25 to \$11 per head and on cows practically \$5.50 per head. The above sales indicate without question that the heavier and better Canadian cattle can be very profitably sent over the line to this market.

Despite the big run on cattle (35,199 head) that we had here Monday, the steers at \$5.30 to \$6.10 sold at prices practically steady with the close of last week. There is an excellent demand for these heavier weight steers and a splendid inquiry for the heavy cows. In fact, prime western cows are quotable up to \$5.25 per cwt. With the prospect of a shortage of corned natives, there is going to be a strong demand for the heavier weight ranges throughout the entire season, and this should be a big inducement to the Canadian ranchmen to keep the Chicago market well in mind.

A locomotive pulling a passenger train blew up at Cuthbert, Col., killing Engineer J. D. Hartman. Richard Wilson, laborer, fell from a four-story building in Vancouver and may die.

Fort William police are investigating a charge that a traffic in Chinese women is going on in that city.

There are only 26 male teachers in the Normal schools of Ontario, as against 417 females.

Mr. Miles Vokes, hardware wholesale man, will run for the Toronto mayoralty.

### Notice.

The Lacombe Poultry Fattening Station will receive the second lot of chickens on Thursday, October 10th. Chickens must be starved 24 hours before bringing them in. We are advancing 10c per lb. for them.

S. J. Page, Mgr.
